WB214-C-OB INVISIBLE UV BLACKLIGHT INK

DESCRIPTION:

RBC's WB214-C-OB is a specially formulated water based acrylic marking ink which is visible only under long wave UV light (ie: black light). This product is formulated in a clear base and is virtually invisible in natural light. When exposed to a long wave UV light source, such as low intensity black light, the ink fluoresces to a bright neon color. Ink color is only visible under this type of light source. WB214-C-OB is a fast, easy, and convenient way to invisibly mark items. Perfect for retail stores, manufacturing processes, quality control, retail, code marking, and anywhere you may need to mark items quickly and invisibly.

APPLICATIONS:

- Code marking
- Inspection marking
- Identification marking
- QC/Pass-Reject Marking

BENEFITS:

- Dries tack free in under 5 minutes
- Low VOC level of 120 grams/liter or 1 pound per gallon
- Safe/Non toxic
- Easily applied with brush, stamp, conventional spray, dauber
- Water clean up

LIQUID PROPERTIES:

Resin	Acrylic Base
Viscosity @ 25°C, cps	150
Specific Gravity @ 25°C	1.02

STORAGE:

Keep product tightly capped, in plastic containers. DO NOT FREEZE.
